

Biblical Intensives Offerings

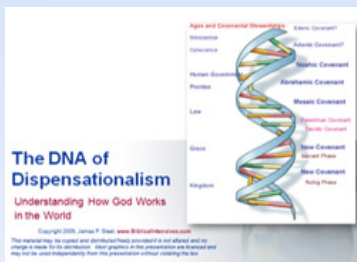

Why Biblical Intensives?
Biblical Intensives is built around the concept of immersion. Short, but interactive exposure to important biblical themes produces genuine, long lasting spiritual results.

Trace the pervasive spread of ancient occultism through twentieth century New Ageism - to the New Spirituality. Urgent! Don't get caught in the vortex. The influences of TNS are most likely present among your church members already! This series serves up an arsenal of vital weapons to defend you and your flock and prepare them to witness.

The emergent mindset enters unsuspecting congregations through the redefinition and use of commonly accepted terms, thereby conditioning believers to accept whole new concepts which are foreign to God's Word. Churches do not become "emergent" overnight, but whole groups and associations have succumbed to this scourge in the space of a few short years. Now is the time to fortify your flock with biblical responses to this movement which surrounds us.

Do the old Dispensational charts leave you desiring more information? Do you have difficulty reconciling the dispensations? Can you address the question whether or not dispensations overlap? Is your everyday member confused about this subject? More importantly, do you know why Dispensationalism must be defended at all costs? In this Intensive, we will show you those things which are true only in Dispensationalism.

Cultivate a biblical love and respect for the Islamic peoples and a genuine desire to win them to Christ, while rejecting the ideology of Islam and showing where Islamics fit in end time prophecy.

Cultivate an understanding of the Jewish people and the great persecution they have endured from "Christians" down through the centuries and aggressively protect your congregation from replacement theology.

First, take your people backward into the Old Testament where we find the Person, Plan, Program, and Passion of Christ clearly identified. Then, take your church family down the Emmaus road and show them how the Lord Jesus Himself taught the disciples how to interpret the Old Testament scriptures concerning Himself. Finish up by watching the Apostle Paul develop and extend biblical truths concerning Christ's great work in this age - reaching the Gentile people for Christ!

The *one week* Intensive immerses the student of God's Word into a book or theme in a way which saturates his thinking. This concept of heavy immersion for a relatively short period of time provides the Holy Spirit with the unique opportunity of working in the heart in an unusual way: Revelation, Colossians, Galatians, Hebrews, or Romans.
